

ANUJ YADAV

DEVOPS ENGINEER

Mumbai, India | +91 9766997339 | yadavanuj5499@gmail.com

PROFESSIONAL SUMMARY

DevOps Engineer with 2 years of experience in CI/CD automation, cloud infrastructure, containerization, monitoring, and deployment management. Experienced in building and optimizing automated pipelines using Jenkins and GitHub Actions, containerizing applications with Docker, and managing Linux-based infrastructure. Skilled in infrastructure automation, observability, security, and system reliability, with a proven track record of reducing release time and improving operational efficiency.

TECHNICAL SKILLS

- CI/CD & Automation: Jenkins, GitHub Actions, Ansible, Shell Scripting, CI/CD Pipelines
- Containers & Orchestration: Docker, Docker Compose, Kubernetes (Hands-on)
- Cloud & Infrastructure: AWS EC2, AWS IAM, Terraform, Linux/Ubuntu
- Monitoring & Observability: Prometheus, Grafana, Loki
- Web & Networking: Nginx, DNS Management
- Security & Quality: SonarQube, Trivy
- DevOps Practices: Deployment Automation, Backup Automation, Disaster Recovery, System Monitoring

PROFESSIONAL EXPERIENCE

Edulab Educational Exchange Pvt. Ltd.

Junior DevOps Engineer | Dec 2023 – Aug 2025

- Automated build, testing, and deployment workflows using Jenkins and GitHub Actions, reducing release time by 25%.
- Streamlined deployment processes to improve release efficiency and minimize application downtime.
- Developed Shell scripts to automate backups, reporting, and recurring system administration tasks.
- Implemented Prometheus, Grafana, and Loki for monitoring, visualization, centralized log management, and proactive alerting, contributing to a 15% reduction in incidents.
- Assisted in disaster recovery planning to strengthen data protection and system recovery capabilities.
- Mentored junior engineers on DevOps tools, CI/CD workflows, and on-premises server management best practices.

Edulab Educational Exchange Pvt. Ltd.
DevOps Engineer Intern | Sep 2023 – Dec 2023

- Assisted in developing and maintaining CI/CD pipelines using Jenkins, GitHub, and Docker.
- Worked with Linux-based systems for shell scripting, log analysis, troubleshooting, and performance monitoring.
- Collaborated with development and QA teams to troubleshoot integration, deployment, and version-control issues.
- Monitored application performance and resolved deployment issues across test environments to improve system reliability.

EDUCATION

B.Tech / B.E. – Computer Science and Engineering
Universal College of Engineering, Mumbai | 2022

CERTIFICATIONS

- DevOps Professional Certificate — PagerDuty & LinkedIn
- Ubuntu Linux Professional Certificate — Canonical & LinkedIn
- Docker Foundations Professional Certificate — Docker & LinkedIn
